

HOTBOX HTH

rel. Humidity and Temperature up to 105°C

Autonom Datalogger for high temperature

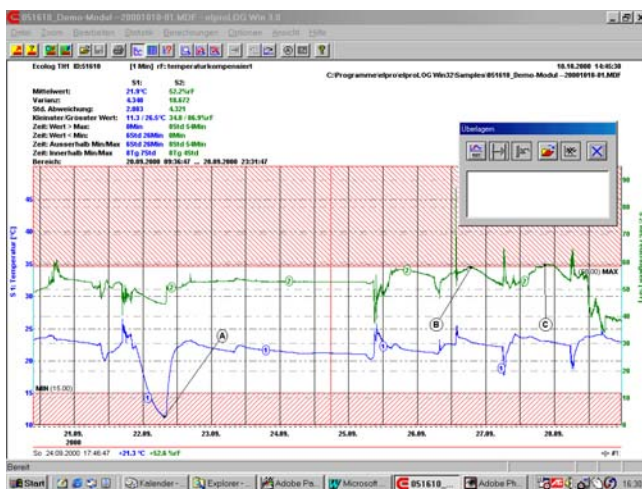

stable Aluminium case, Memory for 64.000 data points

3-Channel: internal 1x Humidity and Temperature plus 1x external Temperature

Ranges: 0%..100%rH, -35°C..+105°C (105°C up to 1 hour, continuous 95°C)

HOTBOX HTH P. No.: 2601

software: elproLOG

Autonomous Measuring and Recording

HOTBOX HTH, the new data logger from the Swiss company ELPRO, is the ideal device for recording data of drying processes. It is simple to operate, easy to handle and can be adjusted quickly to suit all required measurement applications.

ElproLOG the user friendly evaluation software displays measured values in the form of graphs and allows for many additional functions and the implementation of all ELPRO dataloggers. The motto, one software for all ELPRO dataloggers, simplifies documentation in connection with ISO quality assurance or GLP applications.
